

Worksite of the Month: August 2007

Disability Determination Services-Kanawha County

DDS has been an active site in wellness even before they became a PEIA Pathways to Wellness worksite. Not only has the site went beyond the Pathways program requirements with behavior change programs, they have also been awarded the WELCOA (Wellness Council of America) award on five separate occasions. In 1999, DDS received the bronze award, in 2000 the silver award, in 2001 they got the gold award and were recertified again for the gold in 2004. This year they will also be receiving the gold award from WELCOA. The worksite coordinator, David Maggard, has been a wellness coordinator for 15 years and has definitely went beyond his call of duty. He has attended the annual worksite coordinator training every year since inception of the PEIA Pathways to Wellness program. David does an excellent job of being an advocate for health and wellness at his worksite.
