

## **Worksite of the Month: July 2010**

### **Wheeling Park High School (Ohio County)**

Wheeling Park High School in Ohio County is making great strides, literally! The worksite coordinator, Coach Mark Nardone, organized a Walking/Running Club which has brought great success for health and wellness at the school. For its members, what started as only a few steps everyday after school saw them journey across the country. The school has been a PEIA Pathways to Wellness member for almost two years and participation has increased at their annual health screen and with their lifestyle change programs. With all the hard work that Coach Nardone and Ms. Paula Lucas have put into this program, Wheeling Park High School is the worksite of the month for July 2010.
