

Worksite of the Month: July 2011

Bruceton School (Preston County)

Bruceton School in Preston County has been an active member of the *PEIA Pathways to Wellness Program* since 2005. The worksite coordinator, Ms. Hillary Jenkins and the school nurse, Ms. Shelly Kerere, have both worked extra hard to keep everyone in check of their health. This year, the school recorded a participation rate of 100% at the annual health screening and participation in the lifestyle change programs has continued to increase. For all their extra hard work and dedication that Ms. Jenkins and Ms. Kerere have put into this program, it is our pleasure to honor Bruceton School as the worksite of the month for July 2011.
