

## **Worksite of the Month: June 2010**

### **Chandler Elementary (Kanawha County)**

Chandler Elementary in Kanawha County is making fantastic progress. Not only has participation increased at their annual health screen, but their involvement with their lifestyle change programs is at an all-time high. The school has only been a Pathways member worksite for 2 years and the coordinator, Janet Allio, has brought great success for health and wellness at Chandler Elementary. They meet the worksite participation requirements (50%) and had a total of 33 participants for the Chug-A-Jug program. Janet also helps the school's participants better understand their blood work results by reviewing them and answering any questions. With all the hard work that Janet has put into this program, Chandler Elementary is the worksite of the month for June 2010.
