

## **Worksite of the Month: June 2011**

### **Kanawha County Board of Education (Kanawha County)**

Kanawha County Board of Education in Kanawha County has been a pleasure working with. Not only has participation increased at their annual health screen, but also their involvement with their lifestyle change programs. The Board of Education has been a site for the past 6 years and Margaret Buttrick has been the coordinator for the past 2 years. Margaret has brought great success for health and wellness for the employees of Kanawha County. Margaret has helped me with new sites KCS Crede Facility, Kanawha County Bus Drivers, and Kanawha County Board of Education. They always meet the worksite participation requirements had 51 participants last year! Margaret is a fantastic coordinator and I look forward to working more with her.
