

Worksite of the Month: September 2009

Clay County Board of Education

Connie Harper, working at the Clay County Board of Education, is interested in making Clay County Schools healthy. She works hard to keep her county active in the Pathways to Wellness Program. She helps area worksites in many ways, from coming and helping at health screens to helping new worksite coordinators get their program off the ground. She is a huge asset to her county and genuinely wants them to be healthy!
