

## **Worksite of the Month: September 2011**

### **Lizemore Elementary (Clay County)**

Teresa Huffman from Lizemore Elementary is excited to be a worksite coordinator! She is a very active worksite coordinator that makes sure that her worksite participates in activities that are health-driven.

Lizemore Elementary is a very small school but tries hard to participate in all the activities that are offered to them. She is an asset to her worksite and genuinely wants them to be healthy!
